

## **About US**

- MPG's Advisory Board is made up of politicians, academics, former legislative and government staff and successful private sector professionals collaborating to stimulate meaningful discussions on issues we all care about using polling data.
- MPG is the only Massachusetts Polling Aggregator: we produce, collect, index & archive all Massachusetts poll questions from all public sources in a searchable data base to build trended and historical public opinion data and to inform the public discussion.
- MPG maintains an Open Polling Platform: the media and visitors can suggest questions or areas of inquiry.
